# Welcome to Lisbon

On behalf of the European Association for Osseointegration (EAO), we are delighted to announce that the EAO's 28th annual scientific meeting will take place in Lisbon from 26–28 September 2019.

The congress will feature some of the biggest names in implant dentistry and attract thousands of people from around the world to Portugal's capital. The EAO congress is a truly global event, and we are delighted to welcome Brazil as next year's invited country.

The theme of the congress is building a 'Bridge to the future' of implant dentistry. Reflecting this, the EAO has prepared an exciting scientific programme with many new features and a special focus on the future. You will have the opportunity to take part in dynamic and interactive sessions as speakers tackle hot topics relevant to clinical practice.

As ever, the conference will be a great opportunity to network, share research and discover new technology. The trade exhibition will bring you up to date with the cutting edge of research and innovation.

We hope you can join us in Lisbon for what will be one of the biggest events in the field, and help us inspire the future of implant dentistry.

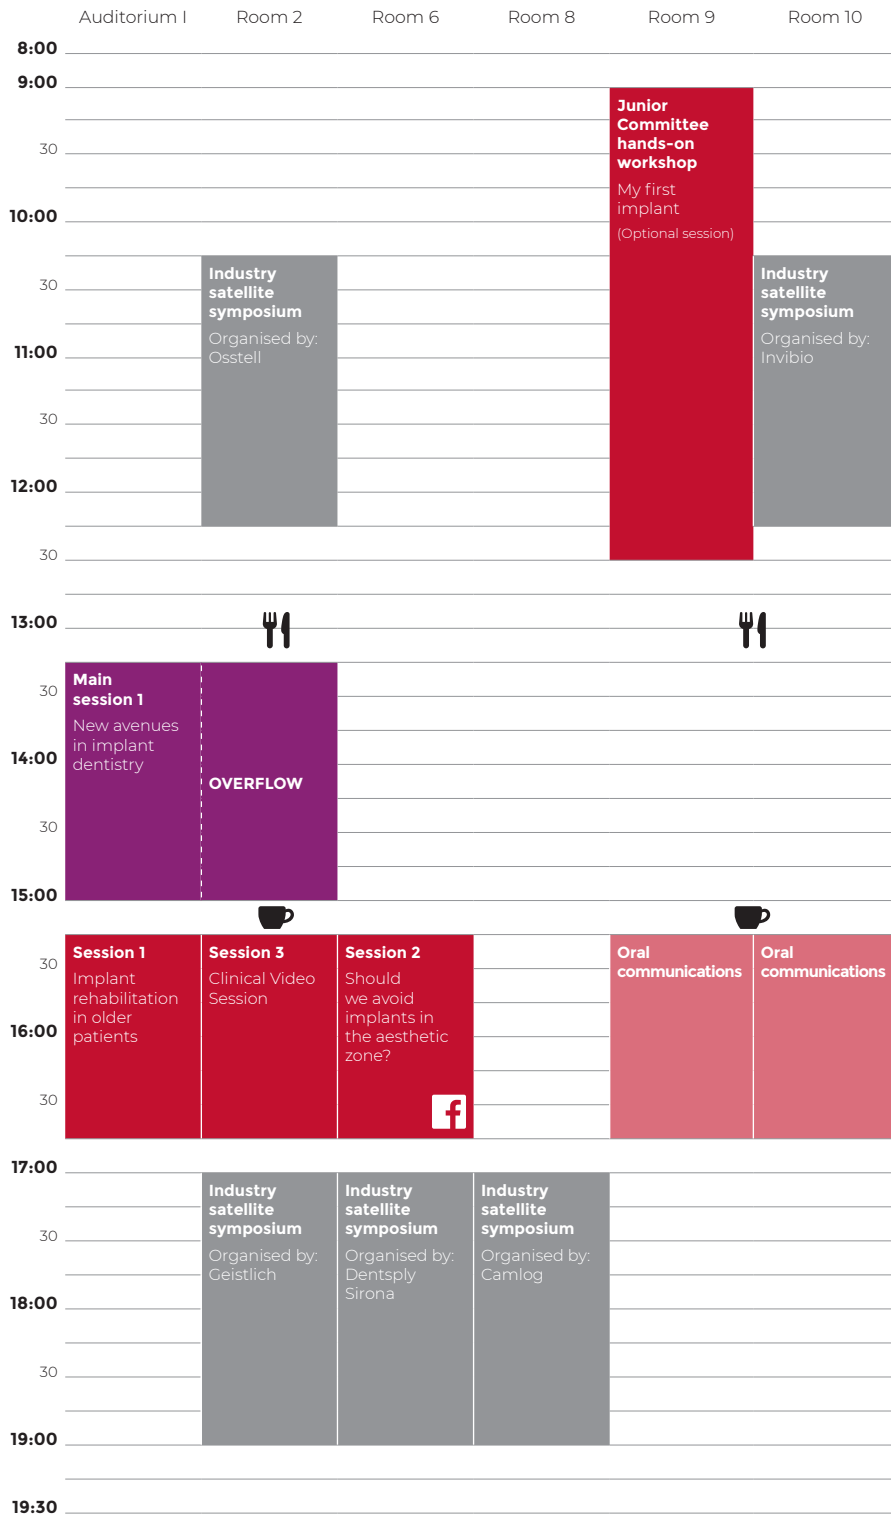

**Gil Alcoforado**  
Congress chair  
28th annual scientific meeting

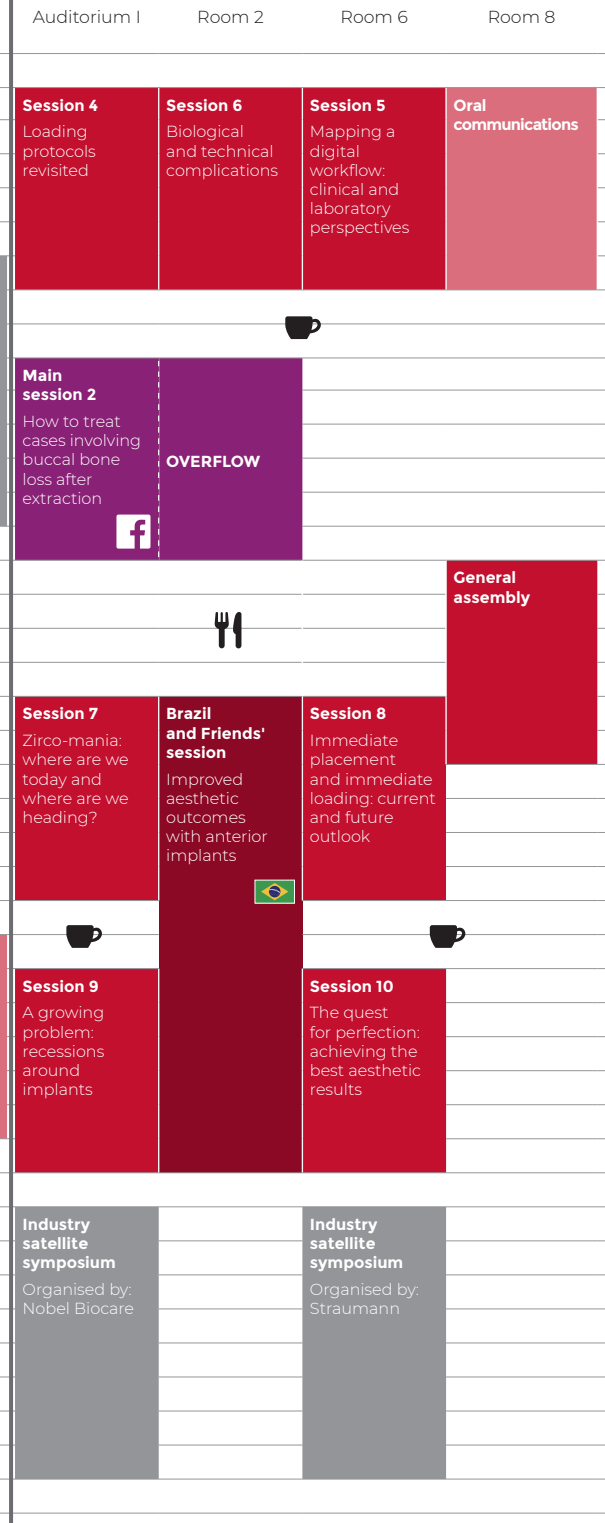

**Susana Noronha**  
Congress co-chair  
28th annual scientific meeting

# Programme overview

## Thursday 26th September

## Friday

## Invited country

### Brazil

The EAO is the leading European association for scientists and clinicians working in the field of implant dentistry. Since its foundation in 1991, the EAO has brought together practitioners and researchers from around the world to share their ideas and expertise.

This year, the Board of Directors is delighted to welcome Brazil as a guest country to the annual congress in Lisbon. With the highest number of members in South America, a very active dental community and its mutual history with Portugal, Brazil was the natural choice for this year's guest country.

Brazilian delegates can enjoy registration fees at discounted rates which are normally reserved for members. Delegates from Brazil who register before 25th June will also be eligible for early bird rates, and can register for 290 € (full price: 600 €).

Don't miss the dedicated 'Brazil and friends' session on Friday afternoon (27th September) on "Improved aesthetic outcomes with anterior implants" featuring international speakers from Brazil and Israel.

## Simultaneous translation

Plenary and Portuguese sessions

Please note that Plenary and Portuguese sessions will be translated from English to Portuguese.

# Scientific programme

Thu Fri Sat

## Thursday 26th September Morning

9:00 - 12:30

### JUNIOR COMMITTEE HANDS-ON WORKSHOP My first implant

#### CHAIRS

Iva Milinkovic (*Serbia*)  
Ferruccio Torsello (*Italy*)

*Limited spaces available,  
register now for this session  
at [congress.eao.org](http://congress.eao.org)  
for only 50 €*

#### THEORETICAL TRAINING

- **Osseointegration and factors influencing osseointegration:**
  - bone level vs tissue level
  - parallel vs conical walls
  - implant connections vs implant surfaces
- **Treatment planning**
- **Surgical aspects of implant placement:**
  - step-by-step three-dimensional implant placement
- **Prosthodontic rehabilitation of implants**

#### PRACTICAL TRAINING

- **Hands-on exercises with pig jaws**

10:15 - 12:15 | **Industry satellite symposia** | See page 12

# Thursday 26th September

## Afternoon

13:15 - 14:45

### MAIN SESSION 1

#### New avenues in implant dentistry

##### CHAIRS

Björn Klinge (*Sweden*)  
Dagmar Bunaes (*Norway*)

#### Are stem cells the implants of the future?

Kamal Mustafa (*Norway*)

#### The future of bone regeneration

Mariano Sanz (*Spain*)

15:15 - 16:45

### SESSION 1

#### Implant rehabilitation in older patients

##### CHAIRS

Luca Cordaro (*Italy*)  
Pedro Nicolau (*Portugal*)

#### Identifying the best treatment options

Jocelyne Feine (*Canada*)

#### Age-related oral health problems

Inger Wårdh (*Sweden*)

#### Peri-implantitis in elderly patient with dementia

Frauke Müller (*Switzerland*)

### SESSION 2

#### Should we avoid implants in the aesthetic zone?

##### CHAIRS

Irena Sailer (*Switzerland*)  
Isabella Rocchietta (*UK*)

#### Placing implants in the aesthetic zone

Homayoun Zadeh (*USA*)

#### No implants in the aesthetic zone

Markus Hürzeler (*Switzerland*)

 **Broadcast live on Facebook**

### SESSION 3

#### Clinical Video Session

##### CHAIRS

José Manuel Navarro (*UK*)  
Arndt Happe (*Germany*)

*During this session, seven candidates will present their clinical cases in video format. Attend this innovative session and learn about the best clinical cases from across the World! The best presentation will be awarded the European prize for clinical video in implant dentistry.*

### Oral communications

Submit your abstract before 2nd May at [congress.eao.org](http://congress.eao.org) to present your research to your peers in this dedicated session.

17:00 - 19:00 | **Industry satellite symposia** | See page 12

19:30 | **Members and faculty dinner at Tapada da Ajuda** (limited seats) | See page 18

22:00 | **Congress party at Ministerium Club**

# Friday 27th September

## Morning

9:00 - 10:30

### SESSION 4

#### Loading protocols revisited

##### CHAIRS

Pascal Valentini (France)  
João Pimenta (Portugal)

##### The US perspective

Jeff Ganeles (USA)

##### The European perspective

João Caramês (Portugal)

### SESSION 5

#### Mapping a digital workflow: clinical and laboratory perspectives

##### CHAIRS

German Gallucci (USA)  
Luís Redinha (Portugal)

##### Clinical perspective

Eric Van Dooren (Belgium)

##### Laboratory perspective

Vincent Fehmer (Switzerland)

### SESSION 6

#### Biological and technical complications

##### CHAIRS

Franck Renouard (France)  
Werner Lill (Austria)

### SPPI\* SESSION 1

#### Aesthetic commitment: will it be irreversible?

##### CHAIR

Inês Faria (Portugal)

##### A multidisciplinary approach to the aesthetic sequelae of periodontal treatment

Ricardo Faria e Almeida (Portugal) and Adriano Sousa (Portugal)

#### Oral communications

Submit your abstract before May 2nd at [congress.eao.org](http://congress.eao.org) to present your research to your peers in this dedicated session.

9:00 - 11:30 | **Hands-on sessions** | See page 14

11:00 - 12:00

### SPPI\* SESSION 2

#### Aesthetic commitment: will it be irreversible? Part 2

##### CHAIR

Inês Faria (Portugal)

##### Surgical/prosthetic approach for aesthetic complications in the treatment with dental implants

Ricardo Faria e Almeida (Portugal) and Adriano Sousa (Portugal)

11:00 - 12:30

### MAIN SESSION 2

#### How to treat cases involving buccal bone loss after extraction

##### CHAIRS

Alberto Sicilia (Spain)  
Ronald Jung (Switzerland)

**The IDR (Immediate Dentoalveolar Restoration) solution**

José Carlos Rosa (Brazil)

**The L-PRF solution**

Marc Quirynen (Belgium)

**The soft tissue solution**

Ion Zabalegui (Spain)

12:30 - 14:00 | **EAO General Assembly**

# Friday 27th September

## Afternoon

✓ 13:30 - 15:00

### SESSION 7

#### Zirco-mania: where are we today and where are we heading?

##### CHAIRS

Florian Beuer (Germany)  
Fernando Guerra (Portugal)

##### Zirconia on teeth

Daniel Edelhoff (Germany)

##### Zirconia on implants

Wael Att (USA)

### SESSION 8

#### Immediate placement and immediate loading: current and future outlook

##### CHAIRS

Henning Schliephake (Germany)  
Oscar González Martín (Spain)

##### Staged placement approach

Ueli Grunder (Switzerland)

##### Immediate placement approach

Marco Degidi (Italy)

### Oral communications

Submit your abstract before 2nd May at [congress.eao.org](http://congress.eao.org) to present your research to your peers in this dedicated session.

✓ 13:30 - 16:00 | **Hands-on sessions** | See page 14

✓ 13:30 - 17:00

### BRAZIL & FRIENDS' SESSION

#### Improved aesthetic outcomes with anterior implants

##### CHAIRS

Arthur B. Novaes Jr. (Brazil)  
Manuel Neves (Portugal)

#### Biological foundations for improved aesthetic outcomes

Arthur B. Novaes Jr. (Brazil)

#### Single implants versus multiple implants in the aesthetic zone

Mario Groisman (Brazil)

#### Strategies to optimise aesthetics around dental implants in the anterior zone: an update

Jamil Awad Shibli (Brazil)

#### Digital techniques: guided surgery and predictable aesthetics

Diego Zimmermann (Brazil)

#### The relationship between periodontium and implants in the aesthetic zone

Gustavo Giordani (Brazil)

#### How to confront severe defects in the anterior maxilla

Zvi Artzi (Israel)

✓ 15:30 - 17:00

### SESSION 9

#### A growing problem: recessions around implants

##### CHAIRS

Mauro Labanca (Italy)  
Paulo Mascarenhas (Portugal)

#### How to prevent recessions around implants

Anton Sculean (Switzerland)

#### Treatment of recessions around implants with the tunnel technique

Sofia Aroca (France)

#### Treatment of recessions around implants with the VISTA technique

Alfonso Gil (Spain)

### SESSION 10

#### The quest for perfection: achieving the best aesthetic results

##### CHAIRS

Per Vult von Steyern (Sweden)  
Guillermo Pradies (Spain)

#### Achieving the best aesthetic restorations: are materials the answer?

Marcelo Calamita (Brazil)

#### Prosthetic considerations when rehabilitating implants in the aesthetic zone

Nuno Guilherme (Portugal)

### Oral communications

Submit your abstract before May 2nd at [congress.eao.org](http://congress.eao.org) to present your research to your peers in this dedicated session.

✓ 17:15 - 19:15 | **Industry satellite symposia** | See page 13

# Saturday 28th September

## Morning

9:00 - 10:30

### SESSION 11

#### How to treat peri-implantitis

##### CHAIRS

Frank Schwarz (Germany)  
Aušra Ramanauskaitė (Lithuania)

##### Current approaches for treating peri-implantitis

Ignacio Sanz Sanchez (Spain)

##### Regenerative approaches for peri-implantitis

Jan Derks (Sweden)

### SESSION 12: JUNIOR COMMITTEE SESSION

#### When to save or “extract” an implant in the aesthetic zone

##### CHAIRS

Helena Francisco (Portugal)  
Tommie Van de Velde (Belgium)

##### SPEAKERS

Luca de Stavola (Italy)  
Kai Fischer (Germany)  
Jose Nart (Spain)

#### Oral communications

Submit your abstract before May 2nd at [congress.eao.org](http://congress.eao.org) to present your research to your peers in this dedicated session.

9:00 - 12:30

### SPERO\* SESSION 1

#### Diagnosis, treatment plan and oral rehabilitation

Stefano Gracis (Italy)

##### CHAIRS

João Carlos Ramos (Portugal)  
Jaime Portugal (Portugal)

### DENTAL ASSISTANTS COURSE

#### Theoretical session

##### SPEAKERS

Inês Faria (Portugal)  
Francisco Brandão de Brito (Portugal)  
Frederico Catalão (Portugal)

- Implantology: what is it?
- indications of implant therapy
- diagnosis and treatment plan
- the surgical act
- complementay surgical procedures
- guided bone regeneration
- maxillary sinus elevation
- soft tissue graft
- post-operative care
- implants rehabilitation
- supportive therapy
- peri-implant pathology

11:00 - 12:30

### SESSION 13

#### The changing shape of abutments and implants: future evolution

##### CHAIRS

Türker Örnekol (Turkey)  
Ricardo Faria Almeida (Portugal)

##### Implant surface modifications

Ann Wennerberg (Sweden)

##### Abutment surface modifications

Luigi Canullo (Italy)

##### How implant and abutment design influence clinical outcomes

Hugo de Bruyn (Belgium)

### SESSION 14

#### Antibiotics in implant dentistry

##### CHAIRS

Morten Enersen (Norway)  
Michel Brex (Belgium)

##### Antibiotics, globalization and bacterial resistance

Cunnar Kahlmeter (Sweden)

##### Antibiotics in implant dentistry

Bodil Lund (Norway)

11:00 - 12:30 | Certification workshop | E-Reputation workshop

12:30 - 13:30 | Industry satellite symposia | See page 13

# Saturday 28th September

## Afternoon

14:00 - 15:30

### MAIN SESSION 3

#### Clinical case presentation and discussion

**CHAIRS:**  
Bjarni Pjetursson (*Iceland*)  
Susana Noronha (*Portugal*)

**EXPERTS**  
Helena Rebelo (*Portugal*)  
Guillermo Pradies (*Spain*)  
Mithridate Davarpanah (*France*)  
Stefano Gracis (*Italy*)

**SPEAKERS**  
Juan Blanco (*Spain*)  
David Nisand (*France*)

13:30 - 15:30

### DENTAL ASSISTANTS COURSE

#### Hands-on workshop

**SPEAKERS**  
Inês Faria (*Portugal*)  
Francisco Brandão de Brito (*Portugal*)  
Frederico Catalão (*Portugal*)

- Room preparation
- Patient preparation
- Instruments: what to choose and how to organize
- Implant surgery – step by step, aspiration and implant handling
- Suturing
- 5 Post-operative recommendations

13:30 - 14:30

### SPERO\* SESSION 2

#### B3D lip sculpture: the harmony of lips with smile and face

Andressa Ballarin (*Brazil*)

**CHAIRS**  
Duarte Marques (*Portugal*)  
Paulo Júlio Almeida (*Portugal*)

14:30 - 15:30

### SPERO\* SESSION 3

#### Osteogenic distraction: application in aesthetics, orofacial physiology and rehabilitation

Alberto Pereira (*Portugal*)

**CHAIRS**  
Duarte Marques (*Portugal*)  
Paulo Júlio Almeida (*Portugal*)

15:30 - 15:45 | Closing ceremony

**The EAO Online Library:**

**EAO**  
EUROPEAN ASSOCIATION FOR OSSEOINTEGRATION

# Industry satellite symposia

Thursday 26th September

✓ 10:15 - 12:15

## What if a prosthetic frame could influence quality of life?

### Clinical Experience with PEEK Infrastructure Results of an Ongoing Prospective Study

Carlos Moura Guedes (*Portugal*)

### Lab Perspective with PEEK Infrastructure in Multiple Applications on Implant Dentistry

António Silva (*Portugal*)

### The potential of PEEK Infrastructure for Achieving and Maintaining Successful Results

Miguel de Araújo Nobre (*Portugal*)

---

There is increased interest in the long term clinical outcomes and quality of life of patients treated with a high performance polymer for the framework material for full-arch implant-supported dental prosthetics, rather than the traditionally used metal or ceramic materials. The presentations by The MALO CLINIC will focus on laboratory experiences and clinical outcomes with JUVORA full-arch implant supported prostheses on edentulous patients.

*Enabling best practices using Osstell implant diagnostics*

## Evidence based guidance for implant loading – sharing knowledge for predictable treatment outcomes

### MODERATOR

Marcus Dagnelid (*Sweden*)

### SPEAKERS

Jeff Ganeles (*USA*), Barry Levin (*USA*)

Neil Meredith (*Australia*)

---

The speakers will demonstrate how clinicians can achieve predictable and optimal time to teeth for each patient using Osstell implant diagnostics.

Easy access to evidence-based diagnostics and statistics is important to guide both implantologists and specialists about osseointegration of implants.

Therefore, Osstell has developed a unique cloud-based portal, the Osstell Connect, a global online service enabling actionable insights and a powerful tool of "factfulness" for the clinician.

# Industry satellite symposia

Thursday 26th September

✓ 17:00 - 19:00

*Bringing inspiration and innovation to dental professionals*

## Inspiration TALKS – making the difference with evolution, innovation and convenience

### SPEAKERS

Lyndon Cooper (USA)  
Martin Wanendeya (UK)  
Malene Hallund (Denmark)

High quality implant dentistry is like the art and science of building a bridge. You start with a foundation based on science, followed by detailed planning and precise surgical skills, completed by a unique, esthetic, restorative design. Together with solutions based on continuous evolution, digital innovation and convenience, the final result makes a difference for each and every patient. And just like the bridge, implant dentistry helps overcome obstacles and create opportunities—to enjoy life again today and tomorrow.

### Regeneration of tissues in sites affected by peri-implantitis

Stefan Renvert (Sweden)

Peri-implantitis affected implants lesions can be successfully regenerated using regenerative measures and maintained over a long time. The lecture will not only cover diagnosis and classification, but also when and how to apply predictive regenerative procedures.

### Digital planning in GBR: customized bone regeneration® in complex bone augmentation

Bilal Al-Nawas (Germany)

Vertical bone augmentation requires space maintaining elements to provide graft stability but are associated with time consuming procedures. 3D printing technology offers new opportunities to reduce surgical time due to customization and supports planning of bone regeneration and implant positioning in a digital workflow.

## Advancements in implant dentistry – accelerating clinical developments with novel techniques and long-term proven elements

### MODERATOR

Mariano Sanz (Spain)

### Surgical performance of implant designs aiming at immediacy concepts and compromised sites

Tiziano Testori (Italy)

### Influence of implant and prosthetic features on long-term marginal bone level

Fernando Guerra (Portugal)

### Novel soft tissue matrix designed for repopulation and revascularization. First clinical report on NOVOMATRIX™

Gerhard Iglhaut (Germany)

Innovating implant dentistry at highest scientific and ethical standards – at the right speed –accelerating evolution. This is a challenge to the dental industry as well as for practitioners in choosing their preferred techniques and workflows. Joint goal is to improve patient's quality of live by shortening treatment times while reaching predictable, highly aesthetical, long-living results. This industry symposium will highlight new possibilities within the BioHorizons Camlog solution portfolio ranging from surgical options in compromised sights to novel regenerative matrices – focusing on sharing clinical outcomes and scientific evidence.

# Industry satellite symposia

## Friday 27th September

✓ 17:15 - 19:15

### Revolutionary innovations in implant dentistry – experience the novel implant system, Nobel Biocare N1™

#### MODERATOR

Gabor Tepper (*Austria*)

Nobel Biocare introduces a revolutionary implant system. Innovations in site preparation, implant and abutment surfaces and design have all been combined to achieve bone preservation, the Mucointegration™ process and improve patient comfort.

Discover how world-renowned clinicians have reduced complexity, streamlined workflows, and shortened treatment times with a state-of-the-art system. It removes guesswork and presents a treatment option that patients are more likely to accept – all driven by biological and minimally invasive principles.

Join our dynamic discussion about the design rationale, scientific evidence, and clinical experience, and gain practical advice on how to incorporate these innovations into daily practice.

### Achieving predictable clinical outcomes in immediate implant protocols. Appropriate planning and innovative techniques

#### MODERATOR

Waldemar Polido (*USA*)

#### SPEAKERS

Eirik Aasland Salvesen (*Norway*)

Algirdas Puisys (*Lithuania*)

Tomas Linkevicius (*Lithuania*)

Louwrens (Blackie) Swart (*Republic of South Africa*)

Edmond Bedrossian (*USA*)

Immediate implant protocols have revolutionized implant dentistry as they offer a variety of benefits for patients and help clinicians treat specific indications, especially in the esthetic zone.

During this corporate forum, world-renowned speakers will present successful immediate treatment concepts for different reconstruction modalities, from single tooth restoration to full arch rehabilitation using the Straumann® ProArch® solutions. The innovative techniques for hard and soft tissue management will also be presented. Particular attention will be paid on the appropriate treatment planning, as well as selection of the most suitable components based on patients' unique clinical situations.

Each session is a real asset offered in addition to the official programme. **The symposia sessions** are rich in research and innovation and organised by industry partners.

Industry partners place particular importance on developing solutions and products in collaboration with leading researchers and scientists working in the field of implant dentistry.

### Note for partners

Industry satellite symposia slots are still available, please contact **Vincent Laudun**, [v.laudun@eao.org](mailto:v.laudun@eao.org) for more information.

# Industry satellite symposia

## Friday 27th September

✓ 17:15 - 19:15

### **How to combine Bone Regeneration and Orthodontics. What is Predictable, Possible and Impossible in Digital Dentistry.**

—

This scientific session will review two hot topics in implant dentistry; firstly Prof. Neiva will present innovative bone grafting techniques combined with orthodontic treatment, followed by Prof. Pradies who will bring more clarity to the digital dentistry procedures, focusing on what's predictable, what's possible and what's impossible.

**SPEAKER**  
Rodrigo Neiva (USA)

Prof. Neiva will present a treatment approach to accelerate orthodontic treatment and prevent dehiscence defects and gingival recessions associated to orthodontic arch expansion. The rationale, advantages and disadvantages for this technique will be discussed, as well as the graft material selection and its use for alveolar ridge augmentation to be done prior to, and during active orthodontic treatment.

---

**SPEAKER**  
Guillermo Pradies (Spain)

Digital dentistry is here to stay. As clinicians we must know the advantages as well as the limitations of the digital dental procedures. While intraoral scanners and digital designing and production methods are improving the daily clinical practice bringing accuracy and speed to the treatments, we should be aware of what's predictable, what's possible and what's impossible nowadays. We need to ensure successful and predictable treatments to our patients.

---

## Saturday 28th September

✓ 12:30 - 13:30

### **Achieving perfect implant placement? Strategies for prosthetically driven digital implant planning**

—

**SPEAKER**  
Zachary Evans (USA)

---

Since the clinical incorporation of CBCT and intraoral imaging into the dental implant practice, the ability for digital planning has evolved. A wide variety of strategies have been developed to plan the surgery (i.e. implant position), referencing the radiographic data along with models or interpretations of the future restorative design. Two questions have arisen: What digital implant planning strategies are the most useful; and what do we consider to be the best implant position? This presentation will review new research into how different digital workflows for implant planning affect the validity of the plan, and demonstrate an ideal workflow.

# Hands-on sessions

Friday 27th September

🕒 9:00 - 11:30 **OR** 🕒 13:30 - 16:00

Information available at [congress.eao.org](http://congress.eao.org)

Information available at [congress.eao.org](http://congress.eao.org)

*Identifying candidates for immediate placement in a post-extraction socket in the anterior zone; use tissue management guidelines to preserve natural gingival contours and execute necessary surgical techniques*

**Update on current research and presentation of a novel Implant design for post extraction immediate loading with hard and soft tissue preservation**

#### **SPEAKERS**

Hugo De Bruyn (*Belgium*)  
Pär-Olov Östman (*Sweden*)

Immediate implant placement in a post-extraction socket in the aesthetic zone is challenging. Anatomic challenges may necessitate cement-retained restorations or angled abutments, neither optimal for preserving mid-facial tissue.

We'll demonstrate how the use of an implant with a novel design, Inverta,™ together with appropriate screw-retained restoration can help maximize bone and soft tissue volume. A dual or Co-Axis® Implant design allows for subcrestal angle correction.

After the workshop, participants should be able to:

- Identify patients for post-extraction socket immediate placement in the anterior zone
- Incorporate tissue management guidelines to preserve natural gingival contours
- Explain the benefits of a site-specific implant and screw-retained restorations
- Execute the necessary surgical techniques

#### **Hands-on sessions**

(limited to 30 or 40 participants per session)

The aim of the hands-on sessions is to promote new techniques and offer high-level practical training under the guidance of renowned experts.

These courses are organised by industry partners and each sponsor will run two sessions during the day. Delegates can register for the morning or the afternoon session for only 160 € (including 23% VAT as of March 2019).

#### **Note for partners**

Hands-on sessions slots are still available, please contact **Vincent Laudun**, [v.laudun@eao.org](mailto:v.laudun@eao.org) for more information.

# Unique experiences in Lisbon

## Get the best views at Lisbon's Miradouros

One of the top-rated things to do in Lisbon is to admire the view at one of Lisbon's many Miradouros. The most famous is Miradouro São Pedro de Alcântara, which is especially magnificent at sunset. Miradouro da Senhora do Monte, Miradouro do Graça and Miradouro das Portas do Sol also offer spectacular panoramic views of the city.

## Walk along thousand-year-old walls

The hilltop fortifications of Castelo de São Jorge date back to the mid-11th century. Roam the snaking ramparts and pine-shaded courtyards for unparalleled views of the city's iconic red rooftops to the river.

## Walk through historic neighbourhoods

If you like historic areas, visit Alfama – the oldest part of Lisbon. Or visit the Baixa district to discover magnificent plazas and wide avenues lined with grand Baroque buildings. Chiado is an elegant and bohemian neighbourhood in Lisbon, offering numerous shopping and cultural opportunities. If you're looking for good fado restaurants, the Bairro Alto district is the place to be, with its cool 'alternative' atmosphere.

## Try pastéis de nata

These tasty custard tarts are Lisbon's best-known dessert, and are best served hot sprinkled with cinnamon. Where better to try them than at Pastéis de Belém, where natas were first sold in 1837. The owners proudly claim they use the original recipe to this day!

## Visit the Belém Tower

One of Lisbon's most iconic landmarks, the early 16th-century Torre de Belém stands over the mouth of the Tagus river, guarding the entrance to the city's harbour. It is a symbol of Lisbon's maritime history and is reached via a walkway raised out over the water on timbers. Inside, it is filled with intricate stonework and amazing views of the Atlantic.

## Hop on Tram 28

Riding the iconic yellow Tram 28 from Martim Moniz to Campo Ourique is one of the best ways to experience Lisbon. See the city from the streets themselves and drive past the main landmarks and attractions, and you can let the tram climb those hills for you!

## Pay tribute to the explorers who came before you

The Padrão dos Descobrimentos marks the shore of the Tagus Estuary. The monument's grand architecture and stonework and is an ornate testimony to the successes of Portuguese exploration during the Age of Discovery. Once you spot it, be sure to pick out the legendary figures of Vasco da Gama and Prince Henry the Navigator.

## Listen to Fado

Fado music is a traditional music genre characterised by its slow and melancholic rhythm. It was recently added to the UNESCO's list of World's Intangible Heritage.

A trip to Lisbon wouldn't be complete without enjoying dinner and being serenaded by fado music.

## Discover a 500-year-old Monastery

The Monastery of Jerónimos was built in the 15th century to commemorate Vasco da Gama's 'discovery' of India. The main attraction is the extraordinarily intricate Gothic chapel opening on to a grand monastery, in which some of Portugal's greatest historical figures are entombed. It is also one of the city's UNESCO World Heritage Sites.

# Accommodation

We have negotiated rates with a selection of hotels in different areas of Lisbon to make your stay an unforgettable experience.

Please note that Eventime group is the official booking organisation for the EAO's 2019 Congress. The only official correspondence you should receive will be from the EAO or Eventime.

# General information

**Date**  
From **Thursday 26th September**  
to **Saturday 28th September 2019**

**Venue**  
**Centro de Congressos de Lisboa**  
Praça das Indústrias 1  
1300-307 Lisboa, Portugal

## Official language

The official language of the EAO congress is **English**. Some sessions **will be translated into Portuguese**.

## Exhibition

An exhibition will be held during the congress. It will offer an excellent opportunity for companies to display their products.

Companies wishing to exhibit may obtain information by contacting Vincent Laudun at: [v.laudun@eao.org](mailto:v.laudun@eao.org) or +33 1 42 36 62 21.

## How to get to the Centro de Congressos de Lisboa (CCL)

Lisbon airport is within the city limits and is only 7km from the popular tourist districts of Baixa, Alfama and Chiado.

A taxi fare from the airport to the CCL or to the city centre will cost 10-15 € depending on traffic and luggage.

Lisbon's official city taxis are painted in a distinctive black and green colour (older taxis are cream coloured).

## Discount on flight tickets

A STAR ALLIANCE MEMBER

TAP Air Portugal has agreed to offer a discount to the participants of the EAO congress in Lisbon who book their flight and buy tickets exclusively through TAP Air Portugal's website. The event code below must be mentioned when making the booking in order to obtain the discount:

- enter the website [www.flytap.com](http://www.flytap.com)
- select flights and dates
- insert the event code **IT19TPCG42** in the Promotion/Congress Code Box, located on the left side of the web-page

**MEMBERS ONLY**

**EAO Members Lounge**

Make the most of your congress experience and grab a bite between sessions or network with colleagues in the Members Lounge.

You can also skip the crowds and tune in to sessions broadcast directly to viewing stations in the Members Lounge!
